PRIMARY BATTERIES.

By H. S. CARHART,

Professor of Physics in the University of Michigan.

A practical treatise, thoroughly and systematically arranged, of the principles involved in the construction, operation and theory of primary batteries.

Of great service to those beginning an extended course of study in the applications and engineering of electricity, and indispensable to one whose occupation requires familiarity with primary batteries.

Cloth. Illustrated. Price, $1.50.

Sent to any address on receipt of price.

Electrical Review,

P. O. Box 3329. 13 PARK ROW, NEW YORK.

DYNAMO TENDER'S HAND-BOOK.

—BY—

F. B. BADT.

Fourth Edition. 70 Illustrations. 94 Pages.

Price, $1.00.

General rules for the care and operation of electric light installations, discarding entirely the use of scientific terms and formulæ.

A valuable and necessary work for dynamo tenders, engineers, linemen and others connected with or having charge of an electric light plant.

MOONLIGHT SCHEDULE FOR 1891.

Sent to any address on receipt of price.

Electrical Review,

13 PARK ROW,

P. O. Box 3329. NEW YORK.

A PRACTICAL TREATISE

— ON THE —

INCANDESCENT ✳ LAMP.

By J. E. RANDALL,

Electrician of the Incandescent Lamp Department of the Thomson-Houston Electric Company.

Cloth Bound. Illustrated.

PRICE, - - 50 CENTS.

Describing the incandescent lamp in simple and definite terms and tracing briefly its journey through the many processes involved in its manufacture.

Sent to any address on receipt of price.

Electrical Review,

13 PARK ROW, NEW YORK.

P. O. Box 3329.

PRACTICAL DYNAMO BUILDING

FOR AMATEURS.

BY FREDERICK WALKER.

Numerous Illustrations. - - 104 Pages.

PRICE, 50 CENTS.

With Instructions how to wind for any Output.

Sent to any address on receipt of price.

ELECTRICAL REVIEW, 13 PARK ROW,

P. O. Box 3329. NEW YORK.
